

Abstract

A synthetic resin multilayer structure (1) delimited by a top face (2), borders (3, 5) and a bottom face (4) of surface area substantially identical to that of the top face (2), said structure (1) comprising:

- a first layer (6) defining said faces (2, 4) and said borders (3, 5),
- a second layer (7), disposed between said faces (2, 4) and said borders (3, 5), of surface area at least equal to that of said faces (2, 4),

characterized in that the second layer (7) forms at least one zigzag-shaped double fold (8, 9).
